Bot Operated Technology Coin

## OFFICIAL WHITEPAPER

The Decentralized Crypto Asset of the Future

Network	BNB Smart Chain (BEP-20)
Symbol	BOTC
Total Supply	2,000,000,000 BOTC
Contract	0xCe7e9057dc056ae2E55F43CC3964A07a7cC45888
Website	botccoin.eu
Email	official@botccoin.eu
Version	1.0 — April 2026

Founded by José Santos — Funchal, Madeira, Portugal — JSbotC\_2025

# 1. Executive Summary

---

BOTC (Bot Operated Technology Coin) is a decentralized BEP-20 token built on the Binance Smart Chain. It represents the digital currency of the technological era — born from the evolution of humanity through computing, automation, clean energy, smart cities, robotics, and artificial intelligence.

The project was founded by José Santos, from Funchal, Madeira Island, Portugal, with a clear vision: to create a transparent, community-driven digital asset that reflects the technological transformation of modern civilization.

BOTC is not just a token — it is a long-term project with a roadmap that includes the development of a dedicated platform and the future creation of a BOTC-backed stablecoin.

## 2. The BOTC Vision

---

Human civilization has gone through a remarkable technological evolution:

Phase	Technology	Impact
1st Generation	Computing & Information Systems	Digital transformation of society
2nd Generation	Industrial Automation	Factory efficiency & mass production
3rd Generation	Clean Energy (Wind, Solar)	Sustainable power for the future
4th Generation	Smart Factories & IoT	Connected manufacturing ecosystems
5th Generation	Robotics & AI Delivery	Robots serve, deliver and assist humans
Now & Future	Artificial Intelligence	Autonomous systems reshaping everything

BOTC is the digital currency that accompanies and represents this entire technological journey. Just as technology transformed the world, BOTC aims to be the token of this transformation — accessible, transparent and built for the future.

# 3. Tokenomics

---

Parameter	Value	Description
Token Name	Little Bot Coin	Full official name
Token Symbol	BOTC	Trading symbol
Blockchain	BNB Smart Chain	BEP-20 standard
Total Supply	2,000,000,000	2 Billion BOTC — fixed supply
Buy Tax	1.5%	Applied automatically via Smart Contract
Sell Tax	1.5%	Identical to buy tax — no asymmetric penalties
Burn Rate	0.5% per tx	Deflationary: reduces circulating supply
DEX	PancakeSwap	Primary trading platform
Initial Price	0.0000002 BNB	Approx. \$0.000121 per BOTC
Contract	0xCe7e9057...c45888	Verified on BscScan

## 3.1 Deflationary Mechanism

Every transaction automatically burns 0.5% of BOTC tokens, permanently reducing the circulating supply. This deflationary mechanism creates progressive scarcity, which over time supports the long-term value of the token as adoption grows.

## 3.2 Fee Distribution

The 1.5% transaction fee (both buy and sell) is directed entirely to the liquidity pool ecosystem — not to private wallets. This ensures the liquidity pool remains healthy and the token price remains stable.

# 4. Roadmap

---

## Phase 1 — Launch (Q1 2026)

- Smart Contract deployment on BNB Smart Chain
- Official website launch (botccoin.eu)
- Liquidity pool creation on PancakeSwap
- Community building on Telegram and Twitter/X
- BscScan token information verification

## Phase 2 — Growth (Q2-Q3 2026)

- CoinGecko and CoinMarketCap listing
- Community expansion to 1,000+ holders
- Marketing campaign and partnerships
- Whitepaper publication and distribution
- Audit by third-party security firm

## Phase 3 — Platform (Q4 2026)

- Development of the BOTC dedicated platform
- Platform beta testing with community
- Integration with DeFi protocols
- Expansion to additional DEX platforms

## Phase 4 — Stablecoin (2027)

- Research and development of BOTC-backed stablecoin
- Partnerships with technology companies
- Institutional outreach
- Stablecoin launch and ecosystem expansion

# 5. Team

---

## 5.1 Founder

### **José Santos — Founder & Director**

Born in Funchal, Madeira Island, Portugal, José Santos is the creator and founder of the BOTC protocol. Before entering the world of cryptocurrencies, he worked for many years as a truck driver — a life of honest work and discipline that deeply shaped his values.

A victim of multiple fraud schemes in the crypto space, José did not give up. He decided to learn from each setback and transform that painful experience into knowledge. His vision: to create a token of respect, value and transparency.

*As José says: "BOTC was born to stay, fight and win."*

Name	Role	Profile
José Santos	Founder & Director	<a href="https://www.linkedin.com/in/jose-santos-0439743b1">linkedin.com/in/jose-santos-0439743b1</a>
Smart Contract Dev	Blockchain Architect	Smart Contract development & audit
Community Manager	Investor Relations	Global community management

## 6. Security & Compliance

---

### Smart Contract Verified

The BOTC smart contract source code is fully verified and publicly accessible on BscScan, ensuring complete transparency of all operations.

### Liquidity Pool Active

Liquidity has been added to PancakeSwap (BOTC/BNB pair), enabling decentralized trading without reliance on centralized exchanges.

### ScamAdviser Score: 100/100

The domain botccoin.eu has been analyzed by ScamAdviser and received the maximum trust score of 100/100 — classified as Very Likely Safe.

### AML/CTF Compliance

BOTC repudiates any illicit activity. The project collaborates with BSC network integrity standards and follows international anti-money laundering guidelines.

### No Admin Key Risks

Transaction fees are fixed in the smart contract and cannot be changed arbitrarily, protecting investors from rug pulls.

### Trustpilot Profile

A BOTC profile on Trustpilot is being configured to allow community reviews and ratings.
